

Dentsply

For over a century, DENTSPLY International has been committed to providing the dental community with innovative, high quality, cost effective dental products. The company has grown from 1899 to become the largest manufacturer of dental prosthetics and consumable dental products with factories in Europe, North and South America, and Asia and sales distribution facilities scattered throughout the globe.

The Start-X™

Some features/benefits:

- One Tip – One Clinical Indication
- simplicity
- new approach, at the opposite of what other manufacturers do (one tip has multiple possible applications), that enables the GDP, unfamiliar with ultrasonic inserts, to know exactly which tip to use in which situation
- Field of use = exclusively in the access cavity
- no microscope needed = adapted to the GDP

Upcera

Upcera Co., Ltd, specializing in precision ceramic, is an ISO qualified company which devotes itself to R&D of fine ceramic for dental application. With 20 years experience in fine ceramic business, we proud ourselves in supplying high performance dental blocks adopting our own HT/ST (High/Super translucent) powder.

With high strength/excellent biocompatibility/aesthetics, Upcera zirconium block is compatible with all kinds of CAD/CAM and Manual milling systems.

With a output of more than 30000units in 2009 and an expected output of over 1million units in 2010, we are among the leading suppliers of this product world widely. Visit: www.upcera-dental.com for more information.
