

NEW

NDT[®]
non dripping
technology

OUR DEVELOPMENT – YOUR ADVANTAGE

Dripping and leaking syringes, dragging and expensive loss of material are things of the past now:

Our new non-dripping and non-leaking NDT[®] syringe especially shows off highly flowable materials to their best advantage. The new NDT[®] syringe ensures precise application and dosage of products according to requirements and without any loss of material. Thus, it makes working not only safe and hygienic, but also economical. Now available for Calcimol LC, Fissurit F, Grandio Flow, Grandio Seal and Ionoseal.
